CALL FOR PAPERS

The 2nd International Conference on Nanoscience and Nanotechnology encourages the exchange of ideas between chemists, physicists, material scientists, biomedical researchers, engineers and other researchers who are active at the frontiers of this diverse and multidisciplinary field. Coverage extends from basic research in physics, chemistry and biology, including computational work and simulations, through to the development of new devices and technologies for applications in a wide range of industrial sectors.

Research areas suitable for paper submission include the following fields:

- Nanomaterials, Nanocomposites and Nano coatings
- Food, Smart Agriculture, and Medicine
- Energy conversion and storage
- Nanotechnology in water purification
- Smart textiles and apparels
- Nanobiotechnology
- Computational Nanoscience
- Nanotechnology safety, policy and awareness
